Preface

This is a compilation of family information from many information sources. Thanks to all who have helped by providing information about their family. I have tried to identify those sources. Known sources are footnoted to the Source section in this collection. There are cases where some of the early information that I collected was not properly sourced. I am adding those source references as I find them missing and the source reference is known.

At times I am presented with conflicting informational facts. So I make a choice based on the information available to me at the time. If you find information you feel is incorrect, let's talk about it and identify a new source or information and get the facts straight.

This is a work in progress as are all of the families. Please help keep this up to date with new information as it becomes available, as events occur.

Please note this printing may contains sections that are partially complete so sections of text may be out of place. Also the sentence structure of some of the "facts" is inconsistent with the descriptions used for the "fact". The "occupation" fact in several places generates a very poor sentence. There are likely others.

Please send additions, updates, photocopies, photographs, negatives, digital images, newspaper clipping, letters, Emails etc. Note that the preferred forms are the electronic forms such as emails, digital information on a CD or a link to another electronic source. The electronic / digital forms reduce typo's and reduces the effort required on my part. Thanks to all contributors for your help.

Introduction - The early Family

Wilhelm and Wilhelmina were born and also married in Pommern, Germany. Two children were born to them in Germany, a girl Anna, and a boy. The boy died on the ship on the Atlantic Ocean as the Quades came to America in the year of 1879. They landed in Fond Du Lac, Wisconsin. Their son, Paul, was born here November 18, 1881.

In 1882 they came to Dakota Territory by train and lived on a farm a few miles northwest of Corona. They lived and farmed here for 16 years. Seven children were born to them while they lived here.

Then they purchased a farm without buildings on it. This was located 4 1/2 miles north of Corona. They built a fine new set of buildings on this farm and moved onto it in 1900. They lived there until their death. Wilhelmina died in March 1915 and Wilhelm died in November 1926. They are both buried in Garfield Cemetery, Roberts County close to their earthly home. A church, Christ Lutheran, was built on the northeast corner of their farm in 1904. They were members of this church.

Anna Quade, their eldest daughter, married Fred Ferber. They lived on Fred's farm three miles south of Corona. Now their son Jack and family live there.

Paul Quade, their eldest son, married Emma Loeschke. They lived four miles north of Corona. Paul passed away but Emma still lives on the farm. Their children live close by. Leslie and family live 3 1/2 miles north of Corona. Walter and family live one mile east of Wilmot, South Dakota and their daughter, Evelyn, lives in Lebanon, Oregon.

All of Wilhelm and Wilhelmina's children have passed away except John, the youngest son. He is living with his youngest daughter, Kathleen, and husband Don Marquette at Buffalo, Minnesota.

This is written the fourteenth day of February, 1983 by Emma Quade who will be 92 years old April 5th. Emma Loeschke (Mrs. Paul Quade) was born near Big Springs, Nebraska and came here with her parents, five brothers, and one sister in a covered wagon with horses. They first landed near Big Stone City in 1896 Later they lived near Milbank, South Dakota. I have lived 4 miles north of Corona for 68 years where Paul and I raised our family.

Wilhelm and Wilhelmina's daughter, Emma, married Herman Ammann of Wilmot, South Dakota in 1911. She lived to be 92 years old, passing away this April 11, 1983. Two sons, Clifford and Rueben precede her in death as well as her husband (1942). Four sons, Harold, Glenn and Loren live at Wilmot while Myron farms northeast of Corona, South Dakota. Her oldest child, Irene Lentz, lives in Milbank. Her youngest daughter, Beverly (Mrs. Marland Schultz) lives on a farm west of Corona and has taught school in Corona for several years.

Some of Wilhelm and Wilhelmina's other descendants living in the Corona area are Mrs. Willard Steege (Alice), daughter of Minne Quade (Frerichs), Mrs. Merrill Willett (Ethel), daughter of Ernstina Quade (Remund), Robert Quade, son of William Quade, and Jack Ferber, son of Anna Quade (Ferber).

He majored in Electronic Engineering bet 1966 and 1971 at South Dakota State University in Brookings. He Bachelor of Science in Electrical Engineering on Jan. 31, 1971 from South Dakota State University in Brookings. Edward was Commissioned a 2nd Lt. in the United States Air Force Jan. 31, 1971 at South Dakota State University in Brookings. He served as a Civil Engening Officer in the United States Air Force from Feb. 10, 1971 to Jun. 30, 1973 in Ellsworth AFB, Pennington, South Dakota, United States. He was employed, beginning August 20, 1973 at University of Nebraska, Computing Services Network in Lincoln. He began his employment as a computer programmer. After 6 months was promoted to a programmer analyst. Tasks included developing program specifications from department requirements from which programmers would write programs to accomplish the required tasks.

In 1979 accepted the position of data base administrator for the University of Nebraska. The initial Data Base Management System (DBMS) in 1979 was IMS (Information Management System). This DBMS was the host for the university HR systems and the Lincoln campus student information system.

In June of 1983 he departed from the university for a private venture. Much time and effort had been spent over the past year or so installing and developing applications for a business providing accounting services like payroll, accounts payable and accounts receivable. The business was to the break even point but funding had ended so in July of 1984 it was time to go job hunting. At the end of August he returned to his old position at the university.

In 1985 the university leased IDMS (Integrated Data Management System) as another DBMS. IDMS was the host for two applications, a system to manage the Alumni membership and Foundation donors records; and a system to manage financial aid for the Lincoln and Omaha student systems.

In 1989 the university was required to upgrade their student information systems (SIS) to an application that was fully integrated between the functions required in a student information system. This new SIS was implemented on three of the university campuses, UNL, UNO and UNK. The new application needed to be hosted on yet another DBMS called DB2. So DB2 was installed as the host DBMS for the new SIS. Over the next 4 or 5 years IDMS and IMS were no longer required as DB2 became the host DBMS for the student financial aid as it was an integral part of the new SIS; and the university HR system was upgraded and implemented with DB2 as the host DBMS. The Alumni and Foundation system were removed from the university environment for legal reasons related to private business use of state supported equipment.

In 1998 and 99 began activities in preparation for Y2K. One of which required replacing the university accounting system. The SAP R3 system was the chosen application. It was implemented with DB2 as the host DBMS. The implantation of SAP R3 produced considerable growth in the DBMS systems. The DBMS environment grew from about 1200 data base tables to nearly 5000 with the SAP application. Today the the number of tables exceeds 10,000 production data base tables. Edward joined the Nazarene Church at First Church of the Nazarene in Lincoln in 1974. Named after grandfather Edward King, mother's brother Edward and his father, Walter.
